Investment objective

The option will invest predominately (generally 92-98%) in an exchange-traded product (ETP). The selected ETP aims to track a broad index benchmark (FTSE All-World ex US Index) of shares listed on stock exchanges outside of the US (before taxes and fees). The option aims to closely track a Custom Benchmark (95% FTSE All-World ex US Index and 5% Reserve Bank of Australia Cash) before fees and taxes over rolling five year periods.

Investment strategy

The option will hold units in an ETP and cash, CFS will target 95% exposure to the underlying ETP & the option will generally have exposure to the ETP within ranges of 92-98%. CFS has selected the Vanguard All-World Ex-US Shares Index ETF (ASX VEU) issued by Vanguard Investments Australia Limited. Vanguard has adopted a passive investment strategy and aims to track the underlying index. The ETF invests in US dollar terms and is not currency hedged.
