Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable).

Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

The option utilises PIMCO's core fixed interest strategy of seeking strong, consistent investment returns while at the same time moderating the volatility of returns relative to the benchmark. The option aims to outperform the Bloomberg AusBond Composite 0+ Yr Index dollars over rolling three-year periods before fees and taxes.

Investment strategy

In pursuing the option's objective, PIMCO applies a wide range of diverse strategies including duration analysis, credit analysis, relative value analysis, sector allocation and individual security selection. PIMCO's investment strategy emphasises active decision making with a long-term focus and seeks to avoid extreme swings in duration with a view to creating a steady stream of returns. The option may invest in derivatives to gain or reduce exposure to relevant markets and to manage investment risk. The option aims to hedge currency risk.
