# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of Preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the Fund's Constitution and the requirements of the Corporations Act 2001, which includes Accounting Standards. Other mandatory professional reporting requirements have also been complied with.

The financial report is prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Balance Sheet is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be settled within twelve months, except for financial assets held for trading, loans and net assets attributable to unitholders. The amounts expected to be recovered or settled after more than twelve months in relation to these balances cannot be reliably determined, except as otherwise stated.

The financial report was authorised for issue by the Directors of the Responsible Entity on 29 August 2008.

Both the functional and presentation currency of the Fund is Australian dollars.

#### (b) Statement of Compliance

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ('AIFRS'). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ('IFRS').

#### (c) Investments in Financial Assets Held for Trading

#### Classification

The Fund's investments are classified as held for trading and initially recognised at fair value not including transaction costs, which are expensed in the income statement.

#### Recognition/Derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

The derecognition of a financial instrument takes place when the Fund no longer controls the contractual rights that comprise the financial instrument, which is normally the case when the instrument is sold, or all the cash flows attributable to the instrument are passed through to an independent third party.

#### Measurement

After initial recognition, the financial assets held for trading are revalued to fair value at each reporting date.

The fair value of units in unlisted Managed Investment Schemes is determined by reference to published bid prices at the close of business on the Balance Sheet date being the redemption price as established by the underlying Fund's Responsible Entity.

Gains or losses on investments held for trading are recognised in the Income Statement. Investments of the Fund which are considered to be held for trading are units in the Colonial First State Wholesale Imputation Fund.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (d) Investment Income

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. The following specific recognition criteria must also be met before income is recognised:

Distribution income

Distribution income is recognised when the right to receive the payment is established.

Interest income

Interest income is brought to account on an accrual basis.

#### (e) Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at bank, deposits at call with a futures clearing house or short term deposit with an original maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents are as defined above, net of outstanding bank overdrafts.

#### (f) Trade and Other Receivables

Receivables are recognised and carried at the original invoice amount, less a provision for any uncollectible debts. An estimate for doubtful debts is made when collection of an amount is no longer probable. Bad debts are written off when identified.

Amounts are generally received within 30 days of being recorded as receivables.

#### (g) Trade and Other Payables

Liabilities for creditors are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received.

Payables include outstanding settlements on the purchase of financial assets held for trading and distributions payable. The carrying period is dictated by market conditions and is generally less than 30 days.

### (h) Taxation

Under current legislation, the Fund is not subject to income tax provided the unitholders are presently entitled to the income of the Fund and the Fund fully distributes its taxable income.

#### (i) Distributions

In accordance with the Fund's Constitution, the Fund fully distributes its distributable income to unitholders. Distributions are payable at the end of each quarter. Such distributions are determined by reference to the taxable income of the Fund. Distributable income includes capital gains arising from the disposal of financial assets held for trading. Unrealised gains and losses on financial assets held for trading that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (j) Unit Prices

Unit prices are determined in accordance with the Fund's Constitution and are calculated as the net assets attributable to unitholders, or unitholders' funds of the Fund, divided by the number of units on issue. Financial assets held for trading for unit pricing purposes are valued on a "last sale" price basis.

#### (k) Terms and Conditions on Units

Each unit issued confers upon the unitholder an equal interest in the Fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Fund. Unitholders have various rights under the Constitution and the Corporations Act 2001, including the right to:

- have their units redeemed:
- receive income distributions;
- attend and vote at meetings of unitholders; and
- participate in the termination and winding up of the Fund.

The rights, obligations and restrictions attached to each unit are identical in all respects.

#### (I) Net Assets Attributable to Unitholders

Under AASB 132 "Financial Instruments: Disclosure and Presentation", contractual obligations are regarded as liabilities. As unitholders have the ability to redeem units from the Fund, all net assets attributable to unitholders have been recognised as liabilities of the Fund, rather than as equity. The classification of net assets attributable to unitholders does not alter the underlying economic interest of the unitholders in the net assets and net profit attributable to unitholders of the Fund.

#### (m) Goods and Services Tax (GST)

Income, expenses and assets, with the exception of receivables and payables, are recognised net of the amount of GST to the extent that the GST is recoverable from the taxation authority. Where GST is not recoverable, it is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

Receivables and payables are stated inclusive of GST.

Reduced input tax credits (RITC) recoverable by the Fund from the Australian Taxation Authority are recognised as a receivable in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis. The GST component of cash flows, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

#### (n) Expense Recognition

Expenses are recognised in the Income Statement when the Fund has a present obligation (legal or constructive) as a result of a past event that can be reliably measured. Expenses are recognised in the Income Statement if expenditure does not produce future economic benefits that qualify for recognition in the Balance Sheet.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (o) New Application of Accounting Standards

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2008 reporting periods. The impact of these new standards and interpretations is set below:

- AASB 8 "Operating Segments" and AASB 2007-3 "Amendments to Australian Accounting Standards" arising from AASB 8.

AASB 8 and AASB 2007-3 are effective for annual reporting periods beginning on or after 1 January 2009. The Funds have not adopted these standards early. Application of these standards will not affect any of the amounts recognised in the financial statements, but may affect the segment disclosures provided in Note 7.

- Revised AASB 101 "Presentation of Financial Statements Revised" and AASB 2007-8 "Amendments to Australian Accounting Standards" arising from AASB 101.

AASB 101 (Revised) is applicable to annual reporting beginning on or after 1 January 2009. The Fund has not adopted this standard early. It requires the presentation of a statement of comprehensive income and makes changes to the statement of changes in equity but will not affect any amounts recognised in the financial statements. If the Fund has made a prior period adjustment or has re-classified items in the financial statement, it will need to disclose a third balance sheet, this one being at the beginning of the comparative period.

- AASB 132 Financial Instruments: Presentation and AASB 2008-2 Amendments to Australian Accounting Standards - Puttable Financial Instruments and Obligations Arising on Liquidation (Revised AASB 132).

Revised AASB 132 is applicable for reporting periods beginning on or after 1 January 2009. The Fund has not adopted this standard early. Application of this standard will not affect any of the amounts recognised in the financial statements as the Fund is obligated to distribute all of its taxable income in accordance with the Fund's Constitution. Accordingly, there will be no change to classification of unitholders' funds as a liability and therefore no impact on profit or loss and equity.

#### 2. AUDITOR'S REMUNERATION

Auditor's remuneration in respect of auditing the financial report is fully paid by the Responsible Entity.

Other services provided by the auditors are the audit of the compliance plan of the Funds and tax compliance services. The auditors' non-audit remuneration is not paid by the Funds.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2008

#### 3. DISTRIBUTIONS TO UNITHOLDERS

The Responsible Entity adopts the policy of distributing as a minimum the net income for tax purposes. The amount shown as "Distribution payable" in the Balance Sheet represents the component of the final distribution for the year which had not been paid at balance date.

The amounts distributed or proposed to be distributed to unitholders in cents per unit (cpu) during the year were:

#### 8. FINANCIAL RISK MANAGEMENT

The Fund's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk) and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Constitution and seeks to maximise the returns derived for the level of risk to which the Fund is exposed. Financial risk management is carried out by the investment management department (Investment Manager) and regularly monitored by the Compliance Department of the Responsible Entity.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks.

#### (a) Market Risk

#### (i) Price Risk

The Fund's financial assets are indirectly exposed to price risk. This arises from investments held by the Fund for which prices in the future are uncertain. They are classified on the balance sheet at fair value through profit or loss. All investments present a risk of loss of capital. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

Market risk is minimised through ensuring that all investment activities are undertaken in accordance with established mandate limits and investment strategies. This is regularly monitored by the Compliance Department of the Responsible Entity.

The table on Note 8(b) summarises the impact of an increase/decrease of the Australian Share Indexes on the Fund's net assets attributable to unitholders at 30 June 2008. The analysis is based on the assumptions that the index increased by 30% or decreased by 15% (2007 - 30%/(15%)) with all other variables held constant and that the fair value of the Fund's portfolio of equity securities and derivatives moved according to the historical correlation with the index. The impact mainly arises from the reasonable possible change in the fair value of underlying unit price that invests in listed equities.

#### (ii) Interest rate risk

The Fund's exposure to interest rate risk is limited to its cash and cash equivalents, which earns a floating rate of interest.

#### 8. FINANCIAL RISK MANAGEMENT (continued)

#### (b) Summarised Sensitivity Analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates and historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the fund invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

30/06/2007	(16,760)	16,760	(6,495,628)	12,991,256			

#### (c) Liquidity Risk

The Fund is exposed to daily cash redemptions of redeemable units. It therefore primarily holds investments that are traded in an active market and can be readily disposed.

The Fund's indirectly held securities are considered readily realisable, as they are listed on either the Australian Stock Exchange or other recognised stock exchanges.

The Fund's financial liabilities primarily consist of trade payables which include redemptions payable to unitholders at year end as well as other payables such as the accruals of management fees and distributions payable at year end. All financial liabilities of the Funds are contractually due within 30 days.

#### (d) Fair Value Estimation

The carrying amounts of the Fund's assets and liabilities at the balance sheet date approximate their fair values.

Investments in unlisted managed investment schemes are recorded at the redemption value per unit as reported by the Responsible Entity of the fund.

#### 9. CONTINGENT LIABILITIES AND COMMITMENTS

As at 30 June 2008 the Fund has no contingent liabilities and commitments (2007 - none).

#### 10. EVENTS AFTER BALANCE SHEET DATE
