Investment options

Pooled Superannuation Trust

Australian Share Option

Objective

To provide long-term capital growth by investing in a broad selection of Australian companies.

Strategy

Colonial First State's 'GDP Plus' approach is based on the belief that, over the medium-to-long term, share prices are driven by growth in a company's earnings, despite the existence of sentiment which can lead to short-term price volatility. The strategy of the option is therefore to invest in quality companies, with strong balance sheets, whose earnings are expected to grow at a greater rate than the Australian economy as a whole. The option predominantly invests in Australian companies and therefore does not hedge currency risk.

Colonial First State

Conservative Option

Objective

To provide a regular return while maintaining and potentially increasing the value of your capital over the medium term.

Strategy

The broad asset allocation is to be 30% invested in growth assets (shares and property) and 70% in defensive assets (fixed interest and cash). Allocations are reviewed regularly although changes are infrequent, and a reallocation would only be considered in response to a fundamental change in long-term expectations or market demand. We seek to add value through a disciplined approach to selection of the shares and other assets held in the option. For risk management purposes, the option indexes part of its global share exposure and may partially hedge currency risk.

Property Securities Option

Objective

To provide medium-to-long-term capital growth, together with some regular return, by investing in cash, fixed interest, property and shares.

Ongoing Fees and Expenses

Trustee fees

Colonial First State Investments Limited is entitled to receive a fee based on the gross assets of each investment option. The fee is payable at the end of each month. The amount of this fee is shown in the table below.

Ongoing operating expenses

The Trust Deed allows for the ongoing operating expenses (such as registry, audit, taxation advice, expenses prospectus, accounts, stationery and postage) to be paid directly from each investment option. However, until further notice the Trustee will pay such amounts. No limit is placed on the amount of the ongoing expenses that can be paid from each investment option.

Other costs

Transaction costs (bank charges and account transaction charges) are paid out of the options. Some of these costs are recouped by making an adjustment to the NTA for applications and withdrawals.

Abnormal costs (such as costs of investor meetings, changes to the Trust Deed and defending legal proceedings, and special valuations of assets) are payable from the Trust. These costs are relatively unusual, fairly infrequent costs and tend to be relatively insignificant over time.

Information on fees and charges

Trustee Fees

The Trustee fees are paid out of the Trust and are expressed as a percentage of the gross assets of each investment option at the following rates:

PST Conservative Option	0.75%
PST Diversified Option	0.95%
PST Australian Share Option	0.95%
PST Property Securities Option	0.80%

Where monies are invested into other schemes managed by the Trustee, the Trustee's fee is calculated after taking into account management fees charged in the underlying schemes.

As-a-consequence, the amount shown as Trustee fees in the Statement of Financial Performance reflects only the amount of fees charged directly to the Trust.
